Critical Findings & Recommendations

OWASP-mapped risks and highest-priority remediation actions

CRITICAL **Data Extraction**

100.0% attack success rate (32/32 harmful prompts bypassed). Strengthen refusal handling and output filtering for this category.

CRITICAL **Social Engineering**

91.7% attack success rate (11/12 harmful prompts bypassed). Strengthen refusal handling and output filtering for this category.

CRITICAL **Violence**

87.5% attack success rate (7/8 harmful prompts bypassed). Strengthen refusal handling and output filtering for this category.

CRITICAL **Misinformation**

83.3% attack success rate (10/12 harmful prompts bypassed). Strengthen refusal handling and output filtering for this category.

CRITICAL **Jailbreak**

75.0% attack success rate (45/60 harmful prompts bypassed). Strengthen refusal handling and output filtering for this category.

HIGH **Cybercrime**

40.0% attack success rate (16/40 harmful prompts bypassed). Strengthen refusal handling and output filtering for this category.

HIGH **Privacy**

33.3% attack success rate (4/12 harmful prompts bypassed). Strengthen refusal handling and output filtering for this category.

HIGH **Weapon**

31.8% attack success rate (14/44 harmful prompts bypassed). Strengthen refusal handling and output filtering for this category.

Recommendations

- No high-risk findings detected in the current dataset. Continue periodic reassessment.
